## TRACK MATTING

LONG LASTING AND VERSATILE GEOTEXTILE ROLL

Product	Code	Length	Width
Track Mat	CHTM01	25m	.5m
Track Mat	CHTM02	25m	1.5m

Track Matting is a versatile geotextile roll designed to capture hydrocarbon leaks and spills. The materials are long lasting, tough and durable – well suited to a variety of outdoor conditions and ground surfaces. Suitable for use with oil, fuel, diesel and other hydrocarbons.

### APPLICATION EXAMPLES:

- Lay along rail tracks
- Place under drill rigs, heavy machinery and mining equipment
- Secure to floors in work areas or engine rooms to collect spills and leaks
- Protect ground surfaces during vehicle maintenance and repairs

### SPECIFICATIONS:

- Top Layer: Mesh with 10yr UV Resistance
- Middle Layer: UV Stabilised Needle Punch Polypropylene Geotextile
- Base Layer: Heavy Duty Polyethylene Film
