WEIGHTED DRAIN COVER

PREVENT CONTAMINANTS FROM ENTERING
STORMWATER DRAINS

Product	Code	Length	Width
Weighted Drain Cover with Carry Bag	CHWDC01	.9m	.9m
Weighted Drain Cover with Carry Bag	CHWDC01	1.2m	1.2m

Weighted Drain Covers offer a straightforward and efficient means to temporarily seal a drain pit in case of a spill. Designed as a cost-effective option with a user-friendly design for rapid deployment, these covers are crafted from heavy-duty PVC, ensuring both durability and reliability.

The Weighted Drain Cover comes with a storage bag that can be attached to a wall or similar to ensure it is readily available to deploy in seconds. Made using a robust PVC, the geo-textile underlay ensures a better seal on rough surfaces. The gel filling allows flexibility so the drain cover conforms to almost any gutter or flooring surface while allowing the edges to sit firmly over the grate and drain.

STANDARD FEATURES:

- Heavy Duty 900gsm PVC
- Hi-vis yellow
- UV stabilised up to 5 years
- 260gsm non woven geotextile underlay
- Gel filled perimeter
- Carrying Handles x 4
- Storage bag included

APPLICATION EXAMPLES:

- Industrial sites
- Vehicle car parks
- Fuel storage and transfer areas
- Aggregate wash down areas
